

//(Interview questions set 25)

//1.How does hashmap work in java?

//2.What is the difference between iterator and listiterator?

//3.What is the differnce between fail-fast and fail-safe iterators?

//4.Difference between Hashmap and Hashtable?

//5.When do you use ConcurrentHashMap in java?

//6.What is CopyonWriteArrayList and how it is different from Arraylist and vector?

//7.While passing a collection on argument to a function,How can we make sure the
 // the function will not be able to modify it?

//8.How to decide between Hashmap and Treemap which one should we use?

//9.Difference between coparator and comparable interface?

//10.How to make an objet immutable in java? and Why should we make it immutable?

//11.Which two methods a hashmap key object should implements?

//12.Difference between String,StringBuffer and StringBuilder?

//13.Difference between Arraylist and Linkedlist?

//14.How to check if a linkeedlist contains a loop in java?

//15.Difference between abstract class and interface?

//16.Can we use a return statement in finally clause? if we use then what will happen?

//17.Can you override the static method in java?if yes then how?if not then why?

//18.What is the difference between Start() and run() method in Thread?

//19.If we don't want the finally block to be exicuted then how can we do that?

//18.What is Thread in java?

//19.What are the properties of a thread and how they are used in thread scheduling?

//20.What are the three different properties that can be set ona Thread in java?

//21.What is the purpose of join method in thread class?

//22.What is the fundamental differnece between wait() and sleep() method?

//23.Is it possible to call run() method without start() method in a thread in java?

//24.What are the advantages and disadvantages of multithreading?

//25.What are the demon threads? How will you make a user thread into demon thread?

//26.Can we start a thread multiple times in java?

//27.In what scenarios we can interrupt a thread?

//28.Difference between "==" and .equals() in java?

//29.Why StringBuffer is not immutable?

//30.What all objects are immutable in java?

}
